Lube Technician & Preventive Maintenance Technician

Job-specific functions:

- Maintaining equipment and facilities in satisfactory operating condition by providing for systematic inspection, detection, and correction of incipient failures either before they occur or before they develop into major defects.
- Maintenance, including tests, measurements, adjustments, and parts replacement, performed specifically to prevent faults from occurring.
- Preserve and restore equipment reliability by replacing worn components.
- Partial or complete overhauls at specified periods, oil changes, lubrication and so on.
- Record equipment deterioration to replace or repair worn parts before they cause system failure.

Skills required:

- Basic blueprint/schematic reading
- Basic computer and time management skills
- Material handling
- HVAC basics
- Lubrication systems
- Disassembly/reassembly strategies
- Custodial/housekeeping/organization
- Quality/testing equipment and processes
- OSHA compliance (Level 10)
- Electrical/electronic basics
- Machine and facility knowledge

Experience:

1 yr of related experience as a lube technician or preventative maintenance

Benefits:

Free Medical and Dental insurance on Single and Family plans after 1 full month of employment.

Eye insurance is available for a small premium.

401k and profit sharing after 1 month full month of employment

COVID-19 considerations:

Must be able to wear a face mask
